AGDER

Electric Region Agder

What?

Electric Region Agder is the vision to create the world's first fully electric society with 100% clean energy by 2030.

How?

The goal of Electric Region Agder is to mobilize, coordinate and execute projects that help fulfill the vision.

Who?

More than 50 companies have joined in on the vision. Everyone in Agder can join. Projects and participants are registered at electricregionagder.com

Why?

Agder has to cut 45% of its CO2-emissions to reach the Paris agreement. To achieve this, electrification is essential based on Agder's large surplus of renewable hydropower.
